

Beyond the Built-in Container

Steve Gordon

MICROSOFT DEVELOPER TECHNOLOGIES MVP

@stevejgordon www.stevejgordon.co.uk

Overview

Extending the container using Scrutor

Scanning for services

Decorating services

Using a third-party container

Introducing Scrutor

Demo

Assembly scanning with Scrutor

Demo

Applying the decorator pattern
using Scrutor

Demo

Replacing the built-in container
with Autofac

Review

Installing the Scrutor NuGet library

Simplifying registrations with
assembly scanning

Applying caching with a
decorated service

Registering and using Autofac
